

## Fatherless

Wisdom In Chains

We're incomplete. The world is sick.  
Half the earth is fatherless.  
A missing piece of broken soul.  
Try, but you can never find it all.  
Searching for approval.  
on the fence of false confidence.  
A mother's arms and a mothers love.  
Try to fill the void where the father was.  
Fatherless child.  
Yeah, you want it.  
Yeah, I know you need it bad.  
Break the cycle. Care for the fatherless child.
