Wisdom In Chains

Did you ever think about forever?
It’s an obsession of mine.
At times I’ve been so deep that it made me cry.
Could the world keep turning in the absence of time?
Could I even exist if I’m not yours and you’re not mine?
When I was 5, 39 was a very long time.
I imagined myself dead and gone long before I arrived.
But I’m still waiting for the apex of my life.
I’m so glad I’ve waited. So glad I proved you right.
I’ll wait forever if I’m waiting for you.
If It takes forever I’ll wait here for you.
All the time since I was 5 went by in the blink of an eye.
Forever is ahead and never behind.
If I could bottle this moment in the back of my mind,
I could spend forever living in your light.
I’ll wait forever if I’m waiting for you.
If It takes forever I’ll wait here for you.
All we are, all we are is what we’re waiting for.
If I could spend it with you, I only want you.
I don’t think I can love you more
But I’ve been wrong every time I said that before.
I truly adore you. This love is the truth.
It’s the heartbeat of light, the god rhythm is the night.
You’re my forever, I’m glad I got to spend it with you.
I’ll wait forever if I’m waiting for you.
