

Déjà-Vu

Wishbone Ash

Consider me now
I've waited so long
This life is so brief
We've gotta move on

It's like déjà vu
We've been here before
I don't want to wait anymore

Am I your lover
Am I your friend
Where is this heading?
Where will this end?

Will I be caught
In a new web of lies?
Am I a fool in your eyes?

Consider this now
You've led me along
I can't persevere
I've gotta move on

It's like déjà vu
I've said it before
I don't want to wait anymore

Hours pass by
Love has to find
Its moment in time
Right now

Hours pass by
Love has to find
Its moment in time
Right now
