

Drive

Wishbone Ash

Caught up in the rush hour throng
I've been working hard all week long
Shut my eyes for a minute or three
Relying on technology

I rarely take the wheel
No need to use a key
'Cause I don't drive this car
This car drives me

Drive, just drive, drive for me
Drive, just drive, and take me home

I drive my car or my car drives me
Gives me a sense of security
Driving whichever way that I choose
Something tells me I could lose

Drive, just drive, drive for me
Drive, just drive, yeah and take me home
Drive, just drive, drive for me
Drive, just drive, yeah and take me home
