

## Democracy

## Witchcraft

It's not that i dont care or that i dont listen  
But my cynism has sprung  
Out of a decline inner dominion  
Inside I die inside I run

Twisted beauty and brief fascination  
Ugliness and decay  
Into this system we were born and we were humble  
Our rage has no trail

Democracy the patriarchy indoctrinated tortured ones

Fuck your heroes  
Screw your gods  
Fuck your icons  
Deal with the real  
Your made up morals  
Your media ethics  
Fuck you all  
Degenerated politics

Democracy the patriarchy indoctrinated tortured ones

We all choose to be raped by authorities  
Constant shameless mockery

Defy and deny individuality  
Sanity grows inside of you  
They suffer  
They do
