

Anything

With Confidence

I just wish that I could feel anything
Take my skull and kick it in, anything
Break me down and spit me out, anything
Don't need everything, just want anything

Yeah my head's got me in a real tangled mess
But I just don't want
To start pullin' out all the threads
Cause it's complicated
And we all live amongst a world that we hate
As it brings us down
I won't pretend I'm always okay
Cause that's overrated

I just wish that I could feel anything
Take my skull and kick it in, anything
Break me down and spit me out, anything
Don't need everything, just want anything
Don't need affection, or sympathy
Don't wanna argue then disagree
Just wish that I could feel anything
Don't need everything, just want anything

And I've been trying hard to figure all of this out
But I just don't know
If my happiness is a farce
It's so fucking stupid
I've been burning through beer on the weekend
Flying through all my minutes in a tail spin
I know, say what you want
But I just think I'm done, damn

I just wish that I could feel anything
Take my skull and kick it in, anything
Break me down and spit me out, anything
Don't need everything, just want anything
Don't need affection, or sympathy
Don't wanna argue then disagree
Just wish that I could feel anything
Don't need everything, just want anything

I just wish that I could feel anything
Break me down and spit me out, anything
Take my skull and kick it in, anything
Don't need everything, just want anything

I just wish that I could feel anything
Take my skull and kick it in, anything
Break me down and spit me out, anything
Don't need everything, just want anything
Don't need affection, or sympathy
Don't wanna argue then disagree
Just wish that I could feel anything
Don't need everything, just want anything
