

Better

With Confidence

Call me up and break it off
Now know that I am not enough
Wish that I could have been better
Like I said in all my letters

Keep me in the space between
What you love and what you need
Wish that I could go and get her
Now I stand in awful weather
(Now I stand in awful weather)

All that I ever wanted
I wanna feel worth it
Don't want to be worthless
I wish that I could be
All the people out of there
The friends that desert them
I wanna be perfect
I wish that I could be
Better, better

Know that I have hit the ground
A tiny space to crawl around
Wish that I could find myself
Am I a lost cause, honey?

So tell me how to be
Tell me what you need
Tell me everything that I have fucked up, I wanna see
It's not a place but a person that's home
And I wanna be loved
I don't wanna be lonely
(And I wanna be loved
I don't wanna be lonely)

All that I ever wanted
I wanna feel worth it
Don't want to be worthless
I wish that I could be
All the people out of there
The friends that desert them
I wanna be perfect
I wish that I could be
(Better)

Holding my breath for somebody else and
If I get past the way, the way that I have been
Would you be proud of me?

Wish that I could have been better
Like I said in all my letters
(Like I said in all my letters)

All that I ever wanted
I wanna feel worth it
Don't want to be worthless
I wish that I could be

All the people out of there
The friends that desert them
I wanna be perfect
I wish that I could be
Better, better
I wish that I could be
Better, better
