

I Will Never Wait

With Confidence

Button up your shirt and tie your laces
We're going out it's time to get wasted
I've had it up to here with this week so I'm breaking all your rules
We built up a messy foundation
You looked shocked when it's all shaking
I built it up to feel a complete but I never got to choose

So don't you leave
Cause I won't follow you
Give up tonight

Don't ever try
Don't ever fight
Don't ever, cause I will never wait
No I will never wait
Don't ever try
Don't ever fight
Don't ever, cause I will never wait
No I will never wait

Let go of all motivation
It's my time you think about wasting
I've had it up to here with this week so I'm breaking all your rules
Every bridge we built, I'm gonna break them
Every night you took, I'm gonna claim them
I built it up to feel a complete but I never got to choose

So don't you leave
Cause I won't follow you
Give up tonight

Don't ever try
Don't ever fight
Don't ever, cause I will never wait
No I will never wait
Don't ever try
Don't ever fight
Don't ever, cause I will never wait
No I will never wait

And I saw you shy
With your big blue eyes
And I thought this was our moment
So I saw it out
But I broke you down
Cause I fought for what was golden

And I saw you shy
With your big blue eyes
And I thought this was our moment
So I saw it out
But I broke you down
Cause I fought for what was golden

And I saw you shy
With your big blue eyes
And I thought this was our moment

So I saw it out
But I broke you down
Cause I fought, no I fought
No I fought, no I fought
