

# That Something

With Confidence

I don't know where you came from  
You broke foundations while I'm  
Falling down the middle  
Crawling round a little  
We shoot through constellations  
Two scorpions racing while  
I'm falling down the middle  
Crawling round a little

I won't lose my grip, don't let go

I think I found that something  
I think I'll finally breathe right in  
I think I feel that love I won't give up  
I think you soaked into my skin  
So much has come from nothing  
I think I found that something

Was picking up pieces when you  
Gave me a reason to be  
Fallin' down the middle  
Crawling round a little  
And I see that space in your head  
And I want to fill it in  
And I see that space in your bed  
And I want to be in it  
Fallin' down the middle  
Crawling round a little

I won't lose my grip, don't let go  
No I won't lose my grip, don't let go

I think I found that something  
I think I'll finally breathe right in  
I think I feel that love I won't give up  
I think you soaked into my skin  
So much has come from nothing  
I think I found that something  
(I think I found that something)

I think I found that something  
I think I'll finally breathe right in  
I think I feel that love I won't give up  
I think you soaked into my skin  
So much has come from nothing  
I think I found that something

I think I found that something  
I think I'll finally breathe right in  
I think I feel that love I won't give up  
I think you soaked into my skin  
So much has come from nothing  
I think I found that something  
So much has come from nothing  
I think I found that something
