

AUTOMATON

Within Destruction

I'm lost in darkness, I stumble alone
I can no longer find my way back home
Questions still linger to ask, I don't dare
I'm lost in the enigma of my pain and despair
Embraced by the shadows, I swallow my pride
A prisoner of my own thoughts, there's nowhere left to hide

The words unspoken
Left me with a shattered dream

It's taking control of me and you
It's taking a toll
It's fucking killing me
Manipulating me
Incinerate what's left
I'm numbing the pain
Am I enough for you?

Words sharp like daggers cutting my skin
An illusion of trust, the facade is so thin

It's taking control, it's taking a toll
I'm losing my mind, it's fucking killing me

I try to walk away, still, I carry the ache
This strain inside, I can no longer take

It's taking control of me and you
It's taking a toll
It's fucking killing me
Manipulating me
Incinerate what's left
I'm numbing the pain
Am I enough for you?

Words sharp like daggers cutting my skin
An illusion of trust, the facade is so thin

It's fucking killing
It's fucking killing me
