Demigod

Within Destruction

Driven to insanity, my fate is worse than death itself
I'm blinded by the rage from the inside
The Scarlet Bloom plagues the wasteland with blood and despair
This was my final retribution, these scars I shall bear

Corrupt is the shattered soul of the fallen one

The fallen demigod
The fallen demigod

This hymn of honor is a celebration of war
This barren funeral shall be my final deliverance
This barren funeral shall be my final deliverance
The final deliverance

Roaming the forgotten realms
Gorging on decaying flesh
Enslaved in an endless nightmare
This fate is worse than death
Worse than hell

This fate is worse than death
Why won't you end me now?

One by one they fall in vain
They all immerge just to be slain
Crushed and torn they fade away
The blood sinks into the plains
Motionless they shine
Confined in space and time
The fate of never-falling skies

With this rage now, I can finally see
Death is the only salvation for me
Death is salvation

This is not the end, my tortured legacy will carry on
Let my body dissolve into rot and dust
End me now
