

Demon Child

Within Destruction

Beneath the ashes under shattered skies
I close my eyes where darkness lies
There's one thing on my mind
Why is it driving me insane?
It's the root of my pain
Reckoning, the sickening
It's all fucked up and insane

Can you feel the fire?
We're burning higher and higher
Let's scream it loud, let's scream it wild (scream it wild)
You are my demon child

When I'm torn apart your love's a poison dart
When I'm torn apart your love's a poison dart

I will never ingest your insanity
Why are you chasing me, why are you breaking me?
Oh it feels like, it feels like your love's my kryptonite

Can you feel the fire?
We're burning higher and higher
Let's scream it loud, let's scream it wild (scream it wild)
You are my demon child

Your cover's blown
There's nowhere left to hide
You've really done it now
Get ready, get ready, cause shit's about to get
Shit's about to get wild

Like a blaze, like a flame in the skies
Can you feel it hurting?
Can you feel it burning?

Can you feel the fire?
We're burning higher and higher (higher and higher)
Let's scream it loud, let's scream it wild (scream it wild)
You are my demon child
