

I'll kill and slaughter everyone in my way  
I'll kill and slaughter, leave no fucking remains

With my hands I open your throat  
Try crying for help and choke on your blood  
And just before you collapse  
I'll make you feel all the pleasures of pain  
I'll make you feel the pleasures of pain

Kill and slaughter, slaughter and kill  
I can hear the voices in my head  
Kill and slaughter, slaughter and kill  
I'll kill everyone in my way

Kill and slaughter everyone in my way

How can you call this insanity  
When all I feel is delight?  
How can say this is torture?  
They're just a bunch of scum

You all are scum  
Can't you see you are fucking scum?  
You worthless piece of shit  
I'll make you feel the pleasures of pain  
You all are scum

Kill and slaughter, slaughter and kill  
I can hear the voices in my head  
Kill and slaughter, slaughter and kill  
And just before you collapse I'll  
Kill and slaughter, slaughter and kill  
I can hear the voices in my head  
Kill and slaughter, slaughter and kill  
I'll kill everyone in my way

Kill and slaughter everyone in my way

This is not insanity  
I can hear the voices screaming in my head  
My desire for damnation this is not a fantasy  
You all are scum  
You fucking piece of shit  
You fucking scum  
You scum
