

# The Wrath Of Kezziah

## Within Destruction

A virgin of divinity  
Raped in disgrace of the sanctuary  
Betrayed by the worshiped one  
No longer can she bear this on her own  
This blasphemous deceit  
Of the fallen one

And as she collapses on her knees  
The blood pours out of the womb

Confined in the darkest pit  
Incarnating all who oppose her  
And in this endless wrath  
She is crowned the empress of death

Kneel before thy lord  
The dark one hears not you pray  
And your bright god  
Slaughtered by the fallen  
Bringer of eternal pain

Slaughtered by the fallen one  
The bringer of eternal pain

Your god slaughtered by the fallen one  
The bringer of eternal pain

The Almighty tremble with fear  
They beg for mercy  
Which they did not receive  
As she rips and she tears  
Through their skin and their flesh  
Disfigures what is left  
Of their corpses  
And she spits and she chews  
The remains are in bits  
Blessed corpses

Kneel before thy lord  
The dark one hears not you pray  
And your bright god  
Slaughtered by the fallen  
Bringer of eternal pain

Your perfect god is dead  
Slaughtered by the fallen one  
The bringer of eternal pain  
Your perfect god is fucking dead
