

Labyrinth

Within Temptation

Where all souls disguise
I am drowning in a sea of lies
Why did you throw me there?
Think I am your demise
There is no escape, I've tried

Don't you say it lasts forever
Don't you feel it leads to nowhere?
Every word you said means nothing to me
Don't you say it lasts forever

How do you feel now?
Your words are sweet, but your heart is a lie
In this game of shadows, truth dies
Where
Where is your soul?
Where is your pride?
Apostasy courses through your blood

Don't you say it lasts forever
Don't you feel it leads to nowhere?
Every word you said means nothing to me
Don't you say it lasts forever

Where is your soul?
Where is your pride?
This is what you've become
Lost in the labyrinth built on bones
Do you see what's happening with reality?
When did your heart turn to stone?
Can you find a way out through insanity? Oh
It'll last forever

Don't you say it lasts forever
Don't you feel it leads to nowhere?
Every word you said means nothing to me
Don't you say it lasts forever

It'll last forever
Every word you said means nothing to me
Don't you say it lasts forever
