

With This I Bleed

Within the Ruins

Yeah!
Well, I told myself
I'd never be this way
I've willed a little bit misery
And now my life is death
I'm gonna do my deed
It didn't turn out, so what?
I'm going to rule the world
I won't tell everyone
But no one took me seriously
Just waiting for my chance to shine
And soon will tell me
That this is not your time
The failures are for a lifetime
With this I bleed
The failures are for a lifetime
With this I bleed
Die!
I'm going to rule the world
I won't tell everyone
But no one took me seriously
As life goes out in flames
I'll think of what I've done
And mourn to what the fuck went wrong!
Just waiting for my chance to shine
And soon will tell me
That this is not your time
The failures are for a lifetime
With this I bleed
The failures are for a lifetime
With this I bleed
I'll never let this go
I'll take this to my grave
I'll deport suffering
Onto my dying day
The failures are for a lifetime
With this I bleed
Die!
Die!
The failures are for a lifetime
With this I bleed
