

Haunted

Witt Lowry

You and I walk a fragile line
I have known it all this time
But I never thought I'd live to see it break
It's getting dark and it's all too quiet
And I can't trust anything now
And it's coming over you like it's all a big mistake
Oh, I'm holding my breath, won't lose you again
Something's made your eyes go cold

She was a lonely girl in a cold world
It seemed like no one could console her
And she would laugh, but she was crying on the inside
And all this pain she felt inside, she just couldn't hide
But at parties she would seem to act just fine
And drink her problems away until they subside
And they did, but with time they would come back to haunt her
The drugs and the alcohol turned her into a monster
But she didn't care, she was looking for a quick fix
Looking in the mirror, going out, new lipstick
Wanting to be the girl that's in every guys dreams
Looked into the mirror, sat down and screamed
She screamed

Come on, come on, don't leave me like this
I thought I had you figured out
Something's gone terribly wrong, you're all I wanted
Come on, come on, don't leave me like this
I thought I had you figured out
Can't breathe whenever you're gone
Can't turn back now, I'm haunted

He was a lonely boy with a big void
His heart had been thrown around like a cheap toy
And it was big, but nobody cared
And he would give them all his love, but they were unprepared
And his friends told him, "Fuck bitches, yeah get money
Why spend your time stressing out over honeys?"
And he didn't know, but he wanted to feel something
Searching for a love and ended up finding nothing
But one night he headed up at a party
Saw this girl there, she was acting kinda snotty
But he kinda liked it, it kinda turned him on
And though the signs were there, he approached her head on
Red flags popped up everywhere in the room
And still he asked her if she would be busy at noon
And of course she said no, so they went out on a date
And from that moment on, he had sealed his own fate
He'd say

Come on, come on, don't leave me like this
I thought I had you figured out
Something's gone terribly wrong, you're all I wanted
Come on, come on, don't leave me like this
I thought I had you figured out
Can't breathe whenever you're gone
Can't turn back now, I'm haunted

And so now they're official, a couple months later
He had second thoughts, he didn't know if he should date her
But he didn't wanna be lonely
So he didn't listen to advice from his homies
And everything was great or so this boy thought
He was looking for love and this girl was just not
She never cared for him, she was looking for a quick fix
Looking in the mirror, going out, new lipstick
This boy would give her everything, anything he fucking could
This girl was never happy with herself, love? she never would
And one day this boy went over to her house
She was with another dude giving head on the couch
Screaming

Oh, I'm holding my breath, won't lose you again
Something's made your eyes go cold

Come on, come on, don't leave me like this
I thought I had you figured out
Something's gone terribly wrong, you're all I wanted
Come on, come on, don't leave me like this
I thought I had you figured out
Can't breathe whenever you're gone
Can't turn back now, I'm haunted
