

# Lay Here

Witt Lowry

From nervous touch and getting drunk  
To staying up and waking up with you  
Now we're slipping near the edge  
Holding something we don't need  
Oh, this delusion in our heads  
Is gonna bring us to our knees

So come on, let it go  
Just let it be  
Why don't you be you  
And I'll be me  
Everything that's broke  
Leave it to the breeze  
Why don't you be you  
And I'll be me  
And I'll be me

Yeah, see as I lay here and get lost into those eyes  
Can't deny my feelings for your being, they run deep inside  
And we both know our hunger for some lust is all that's appetized  
No ties is how it's advertised  
I'd say we love these moments, but that's half a lie  
Damn, you're trying to figure me out  
And in your eyes I see the pain and fear that turns into doubt  
Yeah, you find peace inside your mind as we lay here on this couch  
And that's even though you know this moment may not last past now  
It's not fair, you're in my ear, "Mark are you wasting my time"  
We're so hard to define, It's a shame our name will laminate time  
Cause what's forever to a fly, it's forever till we die  
And if I let you have your way, you would just date cause I rhyme  
Our connection is empty, but lately I've been searching for real  
Do you remember how it feels to live and actually feel  
She broke me down, so now you're left with all my pieces to heal  
How can you steal something from someone who has nothing to steal  
That's real

So come on, let it go  
Just let it be  
Why don't you be you  
And I'll be me  
Everything that's broke  
Leave it to the breeze  
Why don't you be you  
And I'll be me  
And I'll be me

See as you lay here... or as we lay here  
You won't bottle your questions  
You're asking why you can't stay here  
The truth, I'm trying to lose all my feelings before they appear  
Wanna be clear, but it's hard with this naked body I lay near  
I know, I shoulda chose someone that matters, no bitches  
I'm wishing I listened, I could've saved my heart from the stitches  
We're kissing, I listen, you're telling me your favorite position  
When really all I wanna hear is that you're loyal and driven  
We're living in a world where girls are thinking diamonds are love  
We're mining it up to remind us of us, paying for trust

Do you get it? She told me, "Mark just forget it"  
I wanna change this world and girl I just don't think that you get it  
This pressure is heavy, not ready to just let you forget me  
But when this all is said and done, you gon regret that you met me  
I used to wanna find a feeling, now I'm feeling so empty  
But honestly, I wanna thank you for the love that you lent me  
That's real

From nervous touch and getting drunk  
To staying up and waking up with you  
Now we're slipping near the edge  
Holding something we don't need  
Oh, this delusion in our heads

Just let it be  
Why don't you be you  
And I'll be me  
Everything that's broke
