

Off The Strength

Witt Lowry

They thought they buried me, apparently, but buried a seed
Somebody said I changed a lot, but honestly a lot's been changin' me
They started signin' virtual rappers, will have to wait and see
If there's a place for me once they dumb the art down to make-believe
The dirt sits on the Tesla and Balenciaga trainers
Just so every time I see 'em, I'm reminded where I came from
I came a long way from three digits on the paystub
To some million-dollar deals I decided to walk away from

I push my limits to the borderline, so versatile
And you only hate 'cause you're the old design
They wanna steal your soul but they can never get ahold of mine
Been workin' every night, it's like my life is stuck on overtime

Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah

But you're so stuck in your bubble, you love to hear yourself talk
And you just can't understand why I don't fit in a box
I own my masters, motherfucker, just in case you forgot
Does it hurt to know you don't own all those average records you've got?
You said I fell off, but your views on success are so basic
You talk a lot of shit for someone that lives in their mother's basement
Funded all this outta pocket, never took a product placement
See, success to me is winning with the people that I came with

I push my limits to the borderline, so versatile
And you only hate 'cause you're the old design
They wanna steal your soul but they can never get ahold of mine
Been workin' every night, it's like my life is stuck on, um, yeah

Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah

Went multiplatinum off a song that didn't even make the album
Did Lolla a cappella 'cause it couldn't get the sound on
The truth is that the journey's more important than the outcome

Look, when I leave, I hope I leave 'em better than I found 'em
And my grandpa's got dementia, so I know nobody's prayin' for me
 Fucked me up when people that I trusted started changin' on me
 Feelin' like a titan, seems like everybody's aimin' for me

You thought you could stop me?
You thought you could stop me?
But I won't ever stop

Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
Off of the strength, ah
Off of the strength, yeah
Fuck what they say, I'm in a game, I've got a place, yeah
