

# Put Me First

Witt Lowry

Ooh, baby, I know it hurts  
But right now, I gotta put me first  
When you cry and scream, yeah, I feel the worst  
But right now, I gotta put me first (Yeah!)

I don't wanna waste our time  
I know you gettin' tired of tryin'  
I know you gettin' tired of cryin'  
Was so good at pretendin' we're fine  
If it helps, put the blame on me  
Have your friends come and hate on me  
Fool me once, then I can't trust you  
Fool me twice, now I can't trust me, now I can't trust me, and  
Never think you'll get me  
You get drunk and text me  
Now you say the worst day of your life was the day that you met me  
Always so petty, say you won't stress me  
Wish I could talk and explain if you'd let me  
Think you should know right now that  
Just because I carry it well, doesn't make it not heavy  
It's heavy, and

Ooh, baby, I know it hurts  
But right now, I gotta put me first  
When you cry and scream, yeah, I feel the worst  
But right now, I gotta put me first  
Mm, baby, I know it hurts  
But right now, I gotta put me first  
And they say it lasts, sometimes it just don't work  
But right now, I gotta put me first

Wanna love you, but I'on love me  
I don't wanna stay, but I'on wanna leave  
Strung you along, cropped to play that all week  
It doesn't sound better when I put it on beat  
Tears in your eyes, no good at goodbye  
Think you were in love with the me that you made in your mind  
You feel like my love was a lie  
Like how could I spend so much time just to leave you behind?  
Damn  
All your things are on the kitchen counter  
You're the type to think your point will matter  
More than mine if you're the one to say it louder  
I don't think that we should waste another hour  
We were milk and honey, now we're sweet and sour  
I can't fix it this time with wine and flowers  
Time I turn my hurt into a superpower, now

Ooh, baby, I know it hurts  
But right now, I gotta put me first  
When you cry and scream, yeah, I feel the worst  
But right now, I gotta put me first  
Mm, baby, I know it hurts  
But right now, I gotta put me first  
And they say it lasts, sometimes it just don't work  
But right now, I gotta put me first
