

# Your Side

Witt Lowry

Yeah

Your ex, he cheated on you, my ex, she cheated on me  
Wanna say "Thank you" to them, they gave us reasons to leave  
Lost faith in fallin' in love, you came and made me believe  
I've got hurt in my heart deep, you'd have to fuckin' rip it out to see  
I'm insecure and can't stop obsessin' on my successes  
No matter what I do, I just never can see my blessin's  
So every conversation, you try to gauge where my head is  
'Cause it never seems to be on the topic that we're dissecting  
We're spending our time on everything other than me and you  
When I start to feel the pressure, you feel the pressure times two  
We fight, you start to cry, I feel like I'm comin' unglued  
I walk away when really all I wanna say is that I love you  
Once again, my stubbornness has got the best of me  
When I wanna get under your skin, I know the recipe  
We're on the same team, don't need to treat you like the enemy  
(Side, your, your side, your)  
I tell you that I'm fine, that's when you say you're testin' me  
I know you're testin' me, I

I should prolly let you in but I don't know how  
I should prolly let you win but I can't back down  
I don't want you to leave, then I tell you to go  
We've been at it all day with our backs to the rope  
I would always start a fight and I don't know why  
I would prolly say "You're right," if I saw your side  
I don't want you to leave, then I tell you to go  
We've been at it all day with our backs to the rope

You tell me, "Mark, shut up, just let it go"  
So immaterial, this stupid shit you fight me for  
I know you're right, but I'm too proud to ever let you know  
Surrounded by a million people, only feel like when you're there is when I'm not alone  
"Get off your fuckin' phone," you say, you're rude for no reason  
I wanna tell you that I'm sorry, yet I tell you I'm leavin'  
You said you love the real me, even when I don't believe it  
I said some shit I didn't mean, you say, "Why don't you repeat it?"  
Motherfucker, now why don't you think about what you said?"  
Instead of saying "I love you," I'm goin' out with my friends  
Instead of saying "I love you," I say "I'm goin' to bed"  
I hate the fact that this adds to the battles inside your head  
Can't let my ego become bigger than my heart  
(Side, your, your side, your)  
I wanna end this fuckin' fight, it's just I don't know where to start  
See, you don't treat me like a product, you appreciate the art  
Want you to know I care about you when it's easy and it's hard  
I know it's hard, but

If everything were to crash  
I wouldn't give a single second that I spent with you back  
See, you make me a better me, you're everything that I lack  
(Side, your, your side, your)  
I'd give you the sun and the stars, but all I have is this track  
(Your side)

I should prolly let you in but I don't know how  
I should prolly let you win but I can't back down  
I don't want you to leave, then I tell you to go  
We've been at it all day with our backs to the rope  
I would always start a fight and I don't know why  
I would prolly say "You're right," if I saw your side  
I don't want you to leave, then I tell you to go  
We've been at it all day with our backs to the rope

Side, your, your side, your side  
Side, your  
Side, your, your side, your side  
Side, your  
Your side
