Uh, black and yellow, with the pedal
Getting rich, but from the ghetto
Took off to another level
Been to war, I got the medals
Different flows, I got several
Different clothes, hopping out expensive doors
Never let a nigga pose
If it's fine with you
Then it's fine with me
If you never try you never find out how real it could be
Got your girls with you
Got my niggas with me
Spend it all and get it back
Being broke is just a memory
Yeah, every-time I hit the club with her we be turning heads
I put numbers on the board
Smell the KK when I'm bored
Private jet, when I board
Give respect across the board
Get a check, when I go
We pull up bitch, we don't troll
