in desperate need of a leader so they follow,
and me i only see chavo,

my skin tough as a rhinos,
so keep hating i keep dating these dime hoes,
diamonds on my neck, got diamonds on my chain,
city or your state catch me mobbin with my gang,
nigga violate they wont hestiate to aim,
man i got enough change to afford the price of fame,
im like poison to yall lames, or drugs or prescriptions,

you want them then pay for em,
and niggas talk fly but im space gone up out of here,

i never sleep but i got big dreams,
lil nigga i do big things,
you know its everything that it seems,
they say my life is like the big screen (big screen),
i fill my bank with every 16,
my money straight and my bitch mean,
you should wait and get a ticket please,
they say my lifes like the big screen (big screen),

i feel like a desperado, on the track i just kick it like rihlo

but please believe im in the streets like pot holes,
Antonio no guitar tho, only instrumental is that pistol,

and underneath the wing so i hustle heavy,
tatted on my face, chest, neck, hand, stomach,
