Wiz Khalifa

Yeah, yo we're  
I'm drunk as a fool

Shit change, bitches change, niggas change  
We never change, we never change  
Shit change, bitches change, niggas change  
We never change, we never change

Now I usually don't do this but  
I roll a joint so I get through to ya  
Get hella high about my paper though  
Come pick you up and we go out to Clippers not the Lakers  
Ballin' brings a lot of haters  
A bar stay on me, a lot of favors  
A lot of favors, roll that weed, we get them skyscrapers  
What we doing with our time?  
Getting fly, finding classic whips to buy  
Bigger fish to fry  
One of y'all you can see it in my eyes  
Money long, you can tell by what I just put in my ride  
When you won niggas wish for you demise  
Nothing wrong, we can see through your demise, 09

Niggas is shape shifting, transformers on us  
Jealous of position, envious of performance  
I'm forever on it  
Known for cooking audio dope and getting off it  
Pots under the faucet  
The right temperature, we toss it  
You want that work, you gotta come and see the bosses  
First tuck in your shirt cut that fucking nonsense  
When in Rome do as the Romans  
You wouldn't know because you never going  
A lot of niggas doing hella ho shit  
And not notice  
Motherfuckers know that I'm not for it  
You'll be extorted  
We came for the paper, cake slices, large portions  
Race Porsches to California by the morning
