Work all night, fall through the trap in the early morn'  
She don't waste any time she getting what she want  
Don't hesitate, baby relax your mind hit this KK and elevate  
Kicking it with some real niggas nothing like them clones  
Should be soaking up all this swag instead they going through your phone  
Girl, Instagram ain't got that many likes  
First she ain't smoke when I approached her now she rolling them right  
And holding 'em tight, going all night, you know I'm the type  
I lower the lights, and

Boo you nasty throw your legs up, I'm in my zone  
Take off your dress take off your bra I'm tryna make you moan  
Make yo ankles touch, my thumb in yo' pussy  
Caressing your butt and tell you, how much I wana fuck  
But I like watching you, freak me before I hit that ass  
Oh you, wanna share me tonight, then call your friend from Georgia Tech  
Cause I enjoy her neck, and I enjoy your breasts  
And y'all can fuck me first and eat each other next  
I'm so blessed, I'll enjoy the show  
Weed smoke, camera open on my iPhone
