

Montego

Wiz Khalifa

What up red one
They don't play with Carol Doche

Boy I gotta let you know
Let you know the dealio
No you never rock the boat, you help me stay afloat
The captain of my soul
Boy I gotta let you know
How I really feelio
I'm never saying adios, your boo ain't going ghost
You had me at hello

And I swear I'm down down down
'Cause you're there when I'm down down
'Cause it's rare, this thing we found
Like a diamond out the ground
And I swear I'm down down down
'Cause you care what I'm about
'Cause it's rare, this thing we found
Yeah I'll always stick around

'Cause every night, every day
Whatever they say, you my man, my Leo
You and me oh, meant to be oh
Anywhere I go you my bae Montego
'Cause every night, every day
Whatever they say, you my man, my Leo
You and me oh, meant to be oh
Anywhere I go you my bae Montego

When the sun set in Rio we'll be having dinner
When we done have some Pinot, baby sneaking pictures
In the club but we see those
Ain't no way you messing up the vibe, we just relocate
Made mistakes when I was young 'cause of ego
Now I protect my energy and use it on the right people
Make sure I treat you like my equal
One I always keep rolled, put it in the air, I'm your hero

And I swear I'm down down down
'Cause you're there when I'm down down
'Cause it's rare, this thing we found
Like a diamond out the ground
And I swear I'm down down down
'Cause you care what I'm about
'Cause it's rare, this thing we found
Yeah I'll always stick around

'Cause every night, every day
Whatever they say, you my man, my Leo
You and me oh, meant to be oh
Anywhere I go you my bae Montego
'Cause every night, every day
Whatever they say, you my man, my Leo
You and me oh, meant to be oh
Anywhere I go you my bae Montego

Hey boy, right here and now
I think we found paradise
Let's just stay a while and check it out

No way I'm ever gonna leave ya
I stay, I'm always gonna be there
Olé, I say it with my chest, I'm messing with the best
I think I might repeat it
No way I'm ever gonna leave ya
I stay, I'm always gonna be there
Olé, I say it with my chest, I'm messing with the best
Now you know I mean it

'Cause every night, every day
Whatever they say, you my man, my Leo
You and me oh, meant to be oh
Anywhere I go you my bae Montego
'Cause every night, every day
Whatever they say, you my man, my Leo
You and me oh, meant to be oh
Anywhere I go you my bae Montego

Yeah, whoa
You and me oh, you and me oh
Oh, yeah
Uh-huh
Yeah
You and me oh, you and me
Yeah yeah, you're mine
