

# Red Eye

Wiz Khalifa

Trees from the grower  
On a pound of weed so I move slower  
Say she came to the studio back in the day but I don't know her  
Smoke Khalifa Kush my eyes lower  
Uh  
Mind of a stoner  
Fuck that  
Mind of a owner  
Rolls Royce, mine getting chauffeured  
Always getting to the point  
Always rolling up a joint  
Always able to supply what they wanting  
Always staying on my grind this ain't comfort  
Wanted kush, make sure they got what they come for  
Roll me up a joint but I need one more

My niggas on, my bitch bad, and my weed bomb  
Ain't telling niggas nothing, that's what the police for  
I'm doing great at my job, you should be doing yours  
A lot of smoke in the air when I open my door  
My clothes s'posed to be tailored  
Car s'posed to be foreign  
Life full of excess things and they s'posed to be boring  
Count this money up and do the same thing in the morning

I got paid two million dollars just for performing  
I'm 'a light this joint up, I won't give you a warning  
She gon' jump right in my car, don't care about her boyfriend  
She gon' bring some of her friends and tell 'em to join in  
Stay away from the drama, I try to avoid it

What I give 'em? Red eyes  
What we givin'? Red eyes  
What they gettin'? Red eyes  
What I give 'em? Red eyes  
What they gettin'? Red eyes  
What I give 'em? Red eyes

They walk me in the back door, I'm the owner of it  
I dropped Kush and OJ  
You a stoner because of it  
I roll up another one  
That's another roach clipped  
I got busted with three joints  
They weighed it and told me it was a zip  
That's a lot of weed smoked in one sitting  
Break it all down don't have the nerve to tell me it won't fit  
I'm the last one smoking and the first one rolling up sticky  
Weed snob, that means I'm picky

I got paid two million dollars just for performing  
I'm 'a light this joint up, I won't give you a warning  
She gon' jump right in my car, don't care about her boyfriend  
She gon' bring some of her friends and tell 'em to join in  
Stay away from the drama, I try to avoid it  
What I give 'em? Red eyes  
What we givin'? Red eyes

What they gettin'? Red eyes  
What I give 'em? Red eyes  
What they gettin'? Red eyes  
What I give 'em? Red eyes
