

# Without You

Wiz Khalifa

You already know how we do around this time  
Khalifa Man  
Whole lot of gangsters with me  
Know we just rolling up living that Taylor Gang lifestyle  
Making sure everybody get entertained  
All the fans get some of this love man, you already know what it is, TGOD Vo  
lume 1, gang gang

Most LA girls ain't even from LA  
Done this before that's the shit they tell me  
Been in this party before, been in this house before  
Been to so many clubs she ain't got no first times no more  
In the studio with other rappers, singers, ballplayers, even actors  
Lotta new clothes to buy  
Lotta new places to fly  
Taking the favors but really don't care bout none of them guys  
She need a new sponsor, she got one  
She need a new ass, so she got one  
She needed new friends went and bought some  
Looking for a sucker know I'm not one, fuck outta here

It's not what I wanted  
And I don't wanna talk about it  
Admit that you fronted  
Now you forced me to live without it  
Boy I'm awake, I can't sleep without you

Most LA girls ain't even from LA  
We love Khalifa man, that's what they tell me  
But I heard it all, got the word I ball  
Get her number, call, girls its only pussy I ain't scared of y'all  
Broke up with your man, now you wanna give me a chance  
Y'all done argue when you tell me you back with him again  
But I understand, game gon' be the game and I ain't gon' be no lame  
Ain't shit really change, I'm switching lanes, me in my newest thing  
You been doing good but I'm doing better  
Hanging with them lames tryna get your shit together  
But I'm the one you dream about, one you scream about  
One you think about, one that piss you off when you see me out

And you thought you were so grown  
Had to let you go  
Get it all on your own  
Now I'm gone and you're tryna stay strong and find a familiar face on this l  
onely road

It's not what I wanted  
And I don't wanna talk about it  
Admit that you fronted  
Now you forced me to live without it  
Boy I'm awake, I can't sleep without you

Can't sleep without you  
Can't eat, can't do a thing without you  
Got me going through some changes without you  
Can't roll this paper plane up without you  
Can't sleep without you

Can't eat, can't do a thing without you  
Got me going through some changes without you  
Don't wanna roll this paper plane up without you  
Leave it up to me, I'll bump into you on the road  
I'll probably see you if you on TV, cuz once I'm done I gotta go  
No cuddle time I hardly sleep, cuz I'm all about my dough  
Time is money talk is cheap  
Presidential suites with anything you want to eat  
They say life is what you make it, it's better when you're with me  
Take you down to the beach, have sex then we fall asleep  
Before I'm gone kiss your cheek, in the morning I'm in the streets  
Without you
