

## 30 Years Of Metal

Wizard

We continue the fight until the end  
We hold up our weapons and sing our songs  
We are proud to be a part of you all  
Something that never ends  
Forever we are bound!

By thunder and lightning, we never stop!  
30 years we've been on top!  
Changes everywhere, ups and downs  
But you can count on us!

Deceivers and liars never had a chance!  
Steel is our destiny  
Fat ass critics we don't care  
We are still strong!

We continue the fight until the end  
We hold up our weapons and sing our songs!

We are proud to be a part of you!  
Real brotherhood we've found!  
Forever we are bound!

We stay strong and ride proud side by side!  
Something that never ends!  
Forever we are friends!

It took us all many years ago  
The life caught in fantasy

There are no borders all around the world  
Yes it freed us all

During all these years we have seen a lot!  
Friendships around the world!  
Way too good to be true!  
Yes we never stop!

We continue the fight until the end!  
We ride into the future  
With honour and pride!
