

# Call Of The Wild

Wizard

Riding on the road to nowhere  
Guided by the stars  
Drinking, rocking, fucking chicks  
Kick some bloody asses

Feel the power inside you  
Let it free  
With your bikes you will ride  
Like thunder in the sky

Let us ride like one man  
Let us hear the freedom sound

Hear the call of the wild  
Deep from your heart  
The call of the wild  
That makes you smile

Give a shit what other says  
Wimps you shouldn't care  
Let them eat your burning wheels  
Laugh about them when they creep

Do just what you wanna do  
The road will burn  
Turn the engine up to ten  
Live with power to the end

Thousand bikes are roaring  
Feel the shaking ground of the earth

Hear the call of the wild  
Deep from your heart  
The call of the wild  
That makes you smile

We're riding free  
Smell the gasoline  
Yeah on the road  
This is our home
