

I Bring Light Into The Dark

Wizard

Darkness moves into the forest
The creatures of the night are awakening
The crows are singing their song
Watch out - it could be your end

I am the creature
The creature of the light
Damned by the elders
Yes my way id right

I am ready, ready to fight!

They came together in a different time
The ancestors of the dark
Witches, werewolves, vampires!
The elders made a pact

I was born to obey
I bring light into the dark
I can turn into any creature
I bring light into the dark
The strength all be mine forever
I bring light into the dark
I bring light into the dark

Years later
I was banished to a swamp
All the soulless by my side

I want to get out - out of here

I send my warriors into the free world
They should search for the relicts
Chalice, dagger and a sword
Should be my deliverance

Caught in the dark
Alone for years!
Trapped in my grave
What soul frees me from pain?

Get me out of here!
Do not be afraid
Let me out - I will free the world from evil!
It's time to feel the power
Bring light into the dark
