Liar And Betrayer

Wizard

Once we were brothers
Fighting for steel
Blood turns to black
This betrayal is real
But no one will stop us
Fighting for the whole

We raise our weapons
Celebrating your fall
Surrounded by demons
Us standing tall
And no one will stop us
Defending our soul

Liar – I wish you'd die
Betrayer – the plague is to get you
Can you feel the hate in us?
Die, die, die!

We walked a long road together
We've written our names in the sky
Nothing in this world last forever
But my hate for you won't die

A long way we ride
One moment we die
Facing the truth
No one will cry
Once we were brothers
Now we are divided

Hell is for heroes
Oblivion for traitors
We're riding forward
No matter if you hate us
Voices of vipers
But nothing can kill us!

Liar – I wish you'd die
Betrayer – the plague is to get you
Can you feel the hate in us?
Die, die, die!

We walked a long road together
We've written our names in the sky
Nothing in this world last forever
But my hate for you won't die
