

# Metal

Wizard

We summon the power of those who dare  
To stand in the first line

With fire and smoke in their hair  
Screaming for metal

With those who survive this show like laughter  
We will drink their blood

Of those who died in this night  
Hail their might

In honour they died  
In honour they'll live on  
High in Valhalla  
They'll make us strong

We are ready to conquer ready to fight  
Heavy metal is our guide  
We are ready to conquer ready to fight  
Heavy metal is our pride  
Heavy metal is our guide

We sit around backstage awaiting the sign  
To come over you

Like burning rain in the night  
A whirlwind of doom

Spikes and leather on the stage  
Like roaring rage

This is the total domination  
Of true metal
