

# The Visitor

Wizard

"Who is this mighty man outside  
The one who killed the trolls?  
Will he be staying here tonight  
Or turning where the thunder rolls?"

"The thunder rolls wherever I travel on my way  
Tonight I will be here don't cry  
Save you are to stay"

"You are a lord that I can see  
A god you are as well  
What is your mighty name to be?  
This you're bound to tell"

"I'm Thor, the mighty god  
The lord of rain and storm  
Now build a fire  
For feast it shall be warm"

"There is no feast we have no meat  
My lord, I am afraid to say  
Hunger will be in our seat  
There is no feast today"

"My goat will give a live for all  
So we have all we need  
I'll kill it now, a roast, I call  
my friend, for us you'll bleed  
Don't break a bone of him tonight  
Not the smallest one you'll harm  
If you do, you little wight  
The mighty Thor will not be calm"

"Delicious is the meal for us  
The marrow I would greed  
I'll break a little bone and thus  
fullfill my baneful need"  
The mighty Thor revived his friend  
In the morning with his hammer  
To bring him to the Aesirs land  
In the used and wonted manner

"Who broke his leg the night before?  
I told you not to do  
I told you what will be afore  
My rage now comes to you"  
The goat's alive again but lame  
One of you has harmed a bone  
One of you is bearing blame  
He will be punished, he alone"

"I was the one I broke the leg  
My lust was just too big  
I fear there is no use to beg  
To your decision I will stick"

"Thjalfi you will follow brave

On each and every way  
No matter how your soul will crave  
For each and every day"
