

# We Are The Masses

Wizard

We're standing still without a sign  
No god and end, far end wide  
We feel the hate  
We feel the blood  
Mourning and hunger at our side

The dream of freedom in our hearts  
Give us the life we all deserve  
Suppression and death, rape and rage  
Let us out, scream and loud!

We are the masses  
Loud and proud  
Give back our lives  
Lay down the arms  
We are the masses  
Scornful of war  
Defending the freedom  
Stop our doom

Now it is time to leave this place  
Thousands of dead should be enough  
We pass the border for a new life  
Fear and dreams supported by hope

We are the masses  
Loud and proud  
Give back our lives  
Lay down the arms  
We are the masses  
Scornful of war  
Defending the freedom  
Stop our doom

We are the masses  
Leaving home for a new future  
For a new  
Are the masses  
Stronger than ever  
The will to survive  
Keeps us alive
