

## We Fight

Wizard

Born into battle as brothers united!  
Sitting on corpses that we have fought  
A world full of lies, but one thing is real:  
This world is saved by the power of steeeeeel!

By the power of Odin, the thunder of Thor!  
The iron is on our side!  
By the power of Odin, the thunder of Thor  
Your blood on my sword makes me sick!

And we fight!  
And we kill!  
And we ride!  
Like lightnings from the sky!

And we sing  
And we swing  
Our swords  
Until the day we die!

We fight!  
We kill!  
We ride  
Until the day we die!

Women are crying  
Soldiers are dying!  
Dying in honour!  
Odin awaits us!  
Listen, you bastards:  
Here comes the king!  
I raise up my hammer  
And thunder will siiiiiing!

By the power of Odin, the thunder of Thor!  
The iron is on our side!  
By the power of Odin, the thunder of Thor  
Your blood on my sword makes me sick!
