

I try to be honest
I try to be fair
I was in love
Before you said
This ain't gon' work
I gotta see
How I'm gon' live
With all of these dreams
You better dip
If you not from the crew
I cannot live without something to do
Smoking til I lose my mind and my shoes
All through the city
Yeah
Just to see you

All
These things are new to me
You and me
3 days
Got me away

I don't need nothing else now
I don't need nothing else now
I don't need nothing else now

Love is all about the timing
(You know what)
(You know what)
(Yeah I'm)
I'm 19
Love is all about the timing
(I guess that's true
I guess that's true)
19
Love is all about the timing
(You know what)
(You know what)
(Yeah I'm)
I'm 19
Love is all about the timing
(I guess that's true
I guess that's true)

In the middle of the week
We don't even care what they see
Drinking and smoking on weed
I was so lost in all the things
She did
In the middle of the week
We don't even care what they see
Drinking and smoking on weed
I was so lost in all the things
She did to me
Cannot sleep
'Cause she's there

Next to me
Why'd you care
Sky is blue
So is me
Take me away

Cannot sleep
'Cause she's there
Next to me
Why'd you care
Sky is blue
So is me
Take me away

You showed more love
Then I thought there was
I can't afford a lot
But I be working on
My dream

Word to God
That I work for real
All these words
Don't matter
When it's you and me
Before I came back didn't know it was real
Now I'm laid back
Thanking God for this

Just thanking God for this
