WizTheMc

All this time  
I see your eyes  
You remind me of the love  
I'm supposed to find  
Come on let's ride for life  
You make me feel alive  
I am so in love

All this time I've been thinking bout your eyes  
Wanna love wanna fight  
Smoked2much you and I  
It's just you and the stars  
I know it be alright  
Only with you  
Be my love  
For more then just valentines  
I get goosebumps  
When you close  
I can't hide my feelings  
Flyin' like UFO's at night  
I been hiding ceilings  
You do the most  
Nobody seeing what you up to  
Tables is turning  
That love might turn into a  
Fuck you

All this time  
I see your eyes  
You remind me of the love  
I'm supposed to find  
Come on let's ride for life  
You make me feel alive  
I am so in love  
All this time  
I see your eyes  
You remind me of the love  
I'm supposed to find  
Come on let's ride for life  
You make me feel alive  
I am so in love

You don't remember the day  
I saw you the first time  
All this time I swear you were being divine  
All this time

It's all written in the stars  
Keep me close and warm  
Times might just get tough  
But we always got love

It's all written in the stars  
Keep me close and warm  
Times might just get tough  
But we always got love

All this time  
All this time  
All this time

All this time  
I see your eyes  
You remind me of the love  
I'm supposed to find  
Come on let's ride for life  
You make me feel alive  
I am so in love  
All this time  
I see your eyes  
You remind me of the love  
I'm supposed to find  
Come on let's ride for life  
You make me feel alive  
I am so in love
