

# Call

WizTheMc

Baby I'm lost  
If you not there  
Come call  
Want you right here  
I'm lost  
If you not there  
Come call  
Want you right here

I want you right by my side  
You know I'd die for these rhymes  
These other kids just imitating  
I don't pay them no mind  
I paved the way just to shine  
Been way to baked to be live  
I radiate that energy  
That make your girl fall in love  
Yeah  
Made her fall in love  
Made her fall in love  
Yeah  
Made her fall in love  
Ah, ah, ah

Baby I'm lost  
If you not there  
Come call  
Want you right here  
I'm lost  
If you not there  
Come call  
Want you right here

Baby I'm lost  
If you not there  
Come call  
Want you right here  
I'm lost  
If you not there  
Come call  
Want you right here

Baby I'm lost  
If you not there  
Come call  
Want you right here  
I'm lost  
If you not there  
Come call  
Want you right here
