Keep loving
And stay cautious
Keep loving
And stay cautious

Maybe I felt too good when I met you
Love got me shook
There's no rescue
Yea
And now I'm gone
Smoking blunts
It's new things
Got new friends
We don't catch up
No
Had to let her
Go
New bed
I didn't pay for
Smoke gas
'Til my face stoned
Uh
Too bad
You didn't say
No
Yeah
It's okay
I don't blame you
Ahh

And I thought
You wanted this
Hmm
I used to love
Your honesty

I thought
You wanted this
Hmm
I
Used to love
Your honesty

Keep loving
And stay cautious
Yah
Keep loving
And stay cautious
Yah
Keep loving
And stay cautious
Yah
Keep loving
And stay cautious

Yea
Always be cautious

New problems coming
New problems calling
But I don't always pick up
No
Leave me alone for awhile
Leave me alone with my smile
Leave me alone with my vibe
Okay
Back in the room
Got a new booth
I got a new key
Got new things to do
Got new friends to hit up
New friends to text
And niggas still getting shot
In the streets what's next?
Goddamn
Stay cautious
Too many problems
Coming out of nothing
I just wanna see if you down
Yea
Thought I had you
Ya
Thought
Wasn't the truth
Nah
I wanted to
I wanted to

Keep loving
And stay cautious
Yah
Keep loving
And stay cautious
Yah
Keep loving
And stay cautious
Yah
Keep loving
And stay cautious
