WizTheMc

Yuh  
Loose phases like shoelaces  
New faces got me thinking  
Like who gon' make it  
I'm here failing but nobody sees it  
You only got right now you got' seize it?  
I'm balling out like its the season  
I quit balling but still believe in me  
Nobody else gon' be like me  
Tell me  
You ever felt this free?

Days of devastation make a nigga change  
Days of devastation make a nigga change  
Days of devastation make a nigga change  
Days of devastation make a nigga change  
Days of devastation make a nigga change  
Days of devastation make a nigga change

Finding new ways  
On minimum wage  
Try to make a change  
You got the colours  
Why not paint  
Say  
You here to live  
Or you here to hate  
The same is lame  
I got adrenaline pumping  
Through my veins  
I feel like every step is a different game  
You gotta make the play  
I won't live with chains  
I get out my cage  
Don't give a fuck what they say  
God is real  
He listens to the words I say  
I don't even need to pray  
It's time to make a change  
Yah  
We all a drop in the rain  
What would you do for fame  
Is that everything  
Yeah  
Say  
Is that everything?  
There is more in me  
Than the money trees and fantasies  
I keep it real  
Want to be how I'm gonna be  
So let us see where I'll be  
But before I leave  
I want you to be free

Days of devastation make a nigga change  
Days of devastation make a nigga change  
Days of devastation make a nigga change

Days of devastation make a nigga change  
Days of devastation make a nigga change  
Days of devastation make a nigga change  
But I know there'll be better days

There'll be better days  
I know there'll be better days  
Better days  
There'll be better days  
Better days
