

# Chill

WizTheMc

Yeah  
Running errands  
Got the bag  
But it's groceries  
I know they been talking  
But they don't even know me  
Lately been lazy  
My bed just been to cozy  
It's been awhile  
Since I seen my homies  
You know the old me  
I changed like you told me  
My lips still on og  
I pray that you don't leave  
Yeah  
That you don't leave  
Yeah  
I know attachments don't last  
She make it hard for me to catch a breath  
Keep me a part from your heart and your chest  
Don't invite me to shit  
Don't show me to your friends  
'Cause I know  
I will fall for you  
Been bored since the fall  
Now you got more  
I can't ignore  
My present thoughts  
But I'll ignore  
What's in my phone  
Uhm  
What's in my phone

With you I got time to chill  
'Cause you make the time stand still  
With you I got time to chill  
'Cause you make the time stand still  
With you I got time to chill  
'Cause you make the time stand still  
With you I got time to chill  
'Cause you make the time stand still

I like the breeze Yah  
The north is cold  
Come and see  
I am at home  
You can stay  
And you can go  
But I got things I wanna show you  
Come through  
Come through  
Any fucking day of the week  
I'm cool  
Yeah  
Yeah  
Some new  
Some new

Tell me something new bout you  
Yeah Yeah Yeah

Tell me some new 'bout you  
Aye  
And I might just stick like glue  
Aye  
We could be rich in a coupe  
Aye  
That some that I'd probably do  
Aye  
Everyday in the booth  
Aye  
Everyday paying dues  
Ya

We can chill still  
We can chill still  
We can chill still  
We can chill still

With you I got time to chill  
'Cause you make the time stand still  
With you I got time to chill  
'Cause you make the time stand still  
With you I got time to chill  
'Cause you make the time stand still  
With you I got time to chill  
'Cause you make the time stand still

Chill chilli pepper  
When it's so hot I'll check the weather  
On your neck I'm feeling lighter  
Got me two two stepping I am not a stepper  
Windshield dirty I'll get a wiper  
So poised-who-knows you are a viper  
Wife her yeah maybe I will  
Only time will tell if I will put you on my  
Will - - - you come meet me in the tour bus  
While the host is yapping we'll be giggling like kids  
I don't really know but I feel like you'll like it  
I can be so sweet like your favourite candy  
Yeah

Chill chili tryna spice things up  
Are you with me we will never stop  
Chill chill chill when it gets so hot  
That's when it gets we get so lost

With you I got time to chill  
'Cause you make the time stand still  
With you I got time to chill  
'Cause you make the time stand still  
With you I got time to chill  
'Cause you make the time stand still  
With you I got time to chill  
'Cause you make the time stand still
