

# Everything

WizTheMc

I spent way too many days  
Contemplating what I'll say  
I'm not busy, I'm just baked  
And can't wait to see your face  
I've been runnin', I've been hidin'  
I've been lookin' for someone  
And it feel like everybody tellin' me  
There ain't that one, but

I'ma find the way, find the way out  
Feelings start to change, start to change now  
I got no more time not to waste, no  
I can't waste, I can't waste

Run away sunshine  
Maybe come my way sometime  
And if you hold me tight  
Then we can have everything

Tell me what you want and what you see  
I got wants and I got needs  
Smoking blunts, I'm up on trees  
Fuck me up or fuck with me  
Love is tough and so is these words  
They told me I can't find the way  
Told me I be walking strange  
Stop lookin', there ain't no way

I'ma find the way, find the way out  
Feelings start to change, start to change now  
I got no more time not to waste, no  
I can't waste, I can't waste

Run away sunshine  
Maybe come my way sometime  
And if you hold me tight  
Then we can have everything

Dahh dahhh  
Dahhh daaa  
Eeuuuhhh

I'ma find the way, find the way out  
Feelings start to change, start to change now  
I got no more time not to waste, no  
I can't waste, I can't waste

Run away sunshine  
Maybe come my way sometime  
And if you hold me tight  
Then we can have everything  
Run away sunshine  
Maybe come my way sometime  
And if you hold me tight  
Then we can have everything
