

Focus

WizTheMc

She say that she want me
But I just want a friend
Tables start to turn
And I hope you understand
Yeah

I been tryna focus
Focus on my Self
My mind been out of focus
I guess I need some help
Yeah

She say that she want me
But I just want a friend
Tables start to turn
And I hope you understand
Yeah

I been tryna focus
Focus on my Self
My mind been out of focus
I guess I need some help
Yeah

Back in the summer in Berlin
I fell in love to quick
I got her number
We talking
Then we start walking with
Gas in our bags
Way to high so we laugh
She don't ask
Why I act like this
Yeah
There's power in your words
She said
So I should be cautious
Wanna get you flowers ain't no percocets
Wanna chill in the morning
There's ashes all over your sheets
And our lips still meet
Every time we start to speak
Feels like an Epiphany

She say that she want me
But I just want a friend
Tables start to turn
And I hope you understand
Yeah

I been tryna focus
Focus on my Self
My mind been out of focus
I guess I need some help
Yeah

She say that she want me
But I just want a friend
Tables start to turn
And I hope you understand
Yeah

I been tryna focus

Focus on my Self
My mind been out of focus
I guess I need some help
Yeah

Guess I need some help
Guess I need more then just pleaser
I been fallin' deep
But never never with no keeper
I cannot be chasing
'Cause I always try to keep up
Yeah
I've been
I've been
I see what they doing
I see how the moving now
Yeah
I've been
Yeah
I've been
Fallin' way to often
Softness my only problem
Call me and imma be honest
It's all this
Yeah all this
All this
All this

She say that she want me
But I just want a friend
Tables start to turn
And I hope you understand
Yeah
I been tryna focus
Focus on my Self
My mind been out of focus
I guess I need some help
Yeah
