

# Leave

WizTheMc

I just wanna leave sometimes  
I just wanna leave  
I just wanna leave sometimes  
Maybe with you

Yeah  
Feel like I need to leave this planet  
Need to see some difference  
Grab my hand  
Let's get abandoned from the fucking system  
You make me feel so grounded  
Feel like I'm okay  
Make me feel like I'm enough  
Like there's nothing to chase

And what if I said there's a way  
What if we just take that plane  
What if I said it's okay  
What if you come on my way  
What if I said there's a way  
What if we just take that plane  
What if I said it's okay  
Why don't you just come on my way

My way

I just wanna leave sometimes  
I just wanna leave  
I just wanna leave sometimes  
Maybe with you  
I just wanna leave sometimes  
I just wanna leave  
I just wanna leave sometimes  
Maybe with you  
Maybe with you  
Maybe

I'm working on myself  
Know that I'm never perfect  
It's those words you said  
That made me feel  
Like you that person  
I was searching  
For the purpose  
Yeah it was worth it  
Overseas  
Where the things seem to be working  
Yeah

Now I gotta find my way  
Take me to light today  
It's all in your eyes  
I see  
I hope you still there  
Now I gotta find my way  
Take me to light today  
It's all in your eyes

I see  
I hope you still there

I hope you still there

I just wanna leave sometimes  
I just wanna leave  
I just wanna leave sometimes  
Maybe with you  
I just wanna leave sometimes  
I just wanna leave  
I just wanna leave sometimes  
Maybe with you  
Maybe with you  
Maybe
