

# Looking Out

WizTheMc

I feel like you been looking  
For something like me  
I feel like you been looking  
For something like me  
I feel like you been looking  
For something like me  
I feel like you been looking out

Don't be shy  
Just talk to me  
Imma run to the top  
Can't be stopping me  
I mean possibly  
A part of me  
Is honestly pretty  
Scared of all of this  
But  
I just start  
Play my part  
Show some love  
Yea Yea  
Boulevard  
Hold my blunt  
I just sparked  
Yeah  
Yeah

Who to trust nowadays?  
And who to love  
If they gon' change  
Yea  
You took my breath away  
Uh  
Made it hard to meditate  
But I'm still on my way  
Still not playing any games  
Fuck a text  
I want your face  
Fuck effects  
I want you real  
Forreal  
Yah  
Tell me what you got in mind  
Yea  
Imma just follow my heart  
Hmm  
Don't be too shy  
When we walk  
Yea  
You act like you is the 1

I feel like you been looking  
For something like me  
I feel like you been looking  
For something like me  
I feel like you been looking  
For something like me

I feel like you been looking out  
I feel like you been looking  
For something like me  
I feel like you been looking  
For something like me  
I feel like you been looking out  
You've been looking out

Been busy tryna find what I want  
Looking for the lies in the 1  
'Cause  
With a moon comes a sun  
With the weak comes the strong  
With some weed it be fun  
But I peep that you gone  
Damn  
Running from shit that I already lost  
Back in the 6  
Yea I'm back on the block  
You feeling the vibe  
When I pull up with God  
Pull up with love  
Yea  
I just want love  
Yah  
What do want  
Huh  
What do you  
What do you want  
Huh  
I just want love

I just need something to  
Keep me cool  
Keep me here  
Why you so fucking cool  
Left me heart  
And left me a fool

I just need something to  
Keep me cool  
Keep me here  
Why you so fucking cool  
Left me heart  
And left me a fool

Left me a fool

I feel like you been looking  
For something like me  
I feel like you been looking  
For something like me  
I feel like you been looking  
For something like me  
I feel like you been looking out  
Feel like you been looking  
For something like me  
I feel like you been looking out  
You been looking out

Feel like you looking out  
Yeah  
Is it me

Is it me  
Or you just looking out  
Yah yah yah  
Are you looking out?  
Hope you not looking for love
