

Love

WizTheMc

I just want love
Ever since you gone
I fall in love
With every girl
That makes me feel good
I just want love
Ever since you gone
I fall in love
With every girl
That makes me feel good

I just want a love
Scared to fuck it up, still
Give me water
That's still
I just got a job
Working for bills
Gotta pay those bills
Gotta pay those
Fuck you say
That all I got was luck
I worked more
Then you in your fucking job
I paved the way
And said goodbye to mom
I follow signs
'Cause I be with God
Ah yea
Always with God
Always with God
I just want love
I just love

I just want love
Ever since you gone
I fall in love
With every girl
That makes me feel good
I just want love
Ever since you gone
I fall in love
With every girl
That makes me feel good

I just want love
Ever since you gone
I fall in love
With every girl
That makes me feel good
I just want love
Ever since you gone
I fall in love
With every girl
That makes me feel good
