

Me

WizTheMc

Everywhere I go
It is following me
Every different day
It seems like that is me

When I started all this rapping shit
Shit just kinda went a lil' different
World so big I'll never trust the system
Words so big I'm speaking in rizzles
Doing it better I never try to fit it
Its keeping me busy I'm making decisions
The work ethic matters I'm doing my business
Every hater step out the way 'till I'm finished
Try to break records like guinness
Back to the roots and just live it
Y'all niggas dead I just live it
Don't be afraid to get it
Soon they'll be getting real jealous
And I be not even famous
Tryna catch up with the game and just face it
Nah nigga I'm stepping away from the faking
Tryna help people out with their own making
I'm in the making
24/7 in a daze don't realize what's real what's fake
Like how do you know who's your real friend
I feel I should give thanks

I feel my people and they feel me
I'm never afraid to be me

Whoop!

Everywhere I go
It is following me
Every different day
It seems like that is me

I really try to get it
Try to break the game like stephen curry
I'm just running no tellin
They finna see me on television
Big question, what's your vision
All these niggas hesitating
To start a mission
Dreams becoming true just listen
I'm not rhyming how its supposed to be
Rapping like I am an born emcee
You talking to me, I'm bored you see
Don't talk the bs you won't get no requests
This nigga been on the beat
Fell in love with the music and now you see
Wrong track there's ain't no way
All these niggas keep on doin' the same
Keep on saying that there's ain't no way
I feel like I didn't say what I really mean with this way
Think of color I'm the paint
Why does everybody love what's so called great

Not grey, ain't no love just pain
Tryna find words for my fitting thoughts
They making sense but frickin' lord
When does it end

Everywhere I go
It is following me
Every different day
It seems like that is me

Everywhere I go
It is following me
Every different day
It seems like that is me
