

No Luck

WizTheMc

Take me out of the system
I be not scared of this death
I been around for a minute
But no one cares bout this rap
Been pushing mountains
Ever since
I put my mind on the desk
Most of the people who talking
Not really down to invest

I hate this fucknigga shit
I took a trip
Just to fucking dip
No luck nigga
This is a real blueprint
You bich
Get up
I don't quit
Make the list
Throw up the fist
Fuck all this shit
They need some african heat
I'm half white in my genes
No offwhite on my jeans
'Cause I thrift all my shit
I need a wife with some g's
If she ain't right imma leave
Was born right by the beach
I need some time
Cannot speak
Some shit is bothering me
Yeah
Cannot trust
But I still do
No love
When I feel you
Thought this be the real you
All this got my feelin' new
Cautious
But stay moving
August
Had no clue
Pause this

And keep moving
Now she doing the same shit
Ghost me like faces
I wear my heart up on my sleeve
And she don't hesitate to break it
Nah
I gotta stay reserved
Gotta paint the picture perfect
What's the point
If u ain't learning
Flow in english
But I'm German
Lit like a fucking furnace

You shouldn't play with my fire
Know where your fucking turf is
Do not step in mine
NOHOMES 'til we fucking die
I fall in love
Don't fall in line
I talk a lot
But I don't lie
My bars
'Causing fucking crimes

This no luck
This no luck
This is fucking practice
This no luck
This no luck
This is fucking practice
This no luck
This no luck
This is fucking practice
Geez
Niggas
Don't wanna practice
