What got you thinking that

Maybe you was right
Maybe I'm confined
Cannot sleep at night
'Cause you on my mind

What got you thinking
Got you thinking
Got you thinking
Got you thinking that

And I never told you
That I loved you
'Cause I knew you didn't want to hear it
So naive thought you wanted me
Gotta breathe
Gotta stick with me
Yeah

Only me
Yea it's only me

What got you thinking that
I want you now
Hmm
What got you thinking that
I want you now
What got you

I try to reap what I saw
Still afraid to fall in love
Please talk don't touch
I want you just for me

Keep me on lock
Keep me at home
Why you so strong
Can't let go

Hmmm

Let go
Need to let go

Take me
To places
You've never been
Never been
Take me
To places
You've never been
Never been

What got you thinking that
I want you now
Hmm

What got you thinking that
I want you now
What got you

What got you thinking that
I want you now
Hmm
What got you thinking that
I want you now
What got you
